

First Annual Jr. Giants Program

The City of San Pablo Recreation Division held their first year of the San Francisco Junior Giants program this summer. This program is a free, non-competitive and coed baseball summer program for youth ages 5-13 years old. Participants were able to learn the fundamentals of baseball while learning important life lessons beyond the field such as: living a healthy lifestyle, the importance of education, how to be confident, how to be a team player, how to develop leadership skills and how to “Strike Out Bullying.” This program served over 130 participants and had great responses from the community on how to prevent summer learning loss by reading daily, focusing on teamwork, and how to work on goals on and off the field.
