REVISED MODIFIED CITY OPERATIONS PLAN (continued)

• POLICE DEPARTMENT LOBBY

- ❖ **Public Visitors:** As of June 8, 2020, the following protocols will be in place for visitors or those seeking services at the Police Department Facility located at 13880 San Pablo Avenue, San Pablo. The essential nature of public safety work and the possibility of rapid and extension contamination of an entire shift of public safety officers – and possibly community contamination -- if one contaminated person enters the Police Department facility mandates more extensive but non-invasive screening and distancing precautions. Despite these precautions mandated by the COVID-19 pandemic, it remains the Department's mission to serve the community; although, the modes of communication may differ now.
- A. The public is encouraged to view the City's website <https://sanpabloca.gov/187/Police-Department> or to contact the Department at 510-215-3130 to determine if questions or requests can be handled online or by phone first.
- B. If someone cannot resolve a matter online or by phone, there is an intercom system outside the lobby at the Police Facility at 13880 San Pablo Avenue. No one will be able to enter the Lobby without calling from that phone/intercom system. Cleaning supplies will be located by the intercom so members of the public can clean the buttons before using them.
- C. Once contacting the Lobby staff, the person will be directed to wait in their car or at a marked off location at least 6 feet away from the Lobby doors as indicated by a sign until allowed into the Lobby.
- D. Anyone entering the Police Department Lobby must:
 - 1. Wear a mask covering their mouth and nose.
 - 2. Not be living with someone or in close contact with someone who has COVID-19 or is under quarantine for suspected COVID-19 infection.
 - 3. Be free of the following symptoms:
 - a. Fever
 - b. Dry Cough
 - c. Shortness of breath
 - 4. Police Department staff will ask persons before entering the Police Department Lobby if they meet the criteria in Section D. If the person has been exposed to COVID-19 per subsection 2 above or appears to have any of the symptoms listed in subsection 3 above, then Police Department staff will not allow the person into the Police Department Lobby and will attempt to provide assistance remotely. All such interactions will be reported to the On-Duty Supervisor to determine if any follow-up is needed. Information on COVID-19 free testing occurring at the West Contra Costa Health Facility located nearby at 13601 San Pablo Avenue, San Pablo will be made available.

1. The person's temperature will be taken prior to entering the building.
2. If the person's temperature is 100.4 degrees or higher, then the person will be asked to wait outside in the shade away from the Lobby doors for 2 minutes and then the temperature will be retaken.

4. If the person refuses to consent to the thermometer scan, then they will be provided alternate Live Scan sites, if applicable, or rescheduled.

PUBLIC FIBER WIDE AREA NETWORK (WAN) PROJECT

Construction of the City's first-ever public fiber wide area network (WAN) communications system is underway, and will connect the various City facilities together in one uniform fiber network to address critical infrastructure needs of the current system, including improved reliability, speed, resiliency, and security.

The City has recognized that this public fiber project could be leveraged to further the City Council's goal of providing high-speed fiber optic or wireless connectivity to businesses and residents across the City. Initially, the current San Pablo Fiber Wide Area Network (WAN) Project aims to connect several City facilities via a fiber optic line.

CONSTRUCTION THIS WEEK

The City's contractor is pulling the fiber from the main run to several "offshoots" such as the Senior Center at Church Lane and traffic signal controllers.

La ciudad ha reconocido que este proyecto de fibra pública podría ser aprovechado para promover conectividad de fibra óptica o inalámbrica de alta velocidad a las empresas y residentes en toda la ciudad. Inicialmente, el actual proyecto de red pública de fibra amplia en San Pablo

(Fiber Wide Area Network (WAN)) tiene como objetivo conectar varias instalaciones municipales a través de una línea de fibra óptica.
