## COMMISSIONER SPOTLIGHTS

*Kaitlyn B., SPYC Chair,, DeAnza High, 12th grade*

“ I got my vaccination at the Richmond Auditorium, and what surprised me the most was how smooth and professional everything went. Nothing felt scary but it was a little sad, seeing the Richmond Auditorium - a place for culture festivities snowball, and graduations! And now its being used as a vaccination center during a whole global pandemic, But seeing the community come together in such a vibrant way is something that I've missed and took for granted. So I urge everyone from 12 and up to get vaccinated! It's important to not only care of ourselves but the people around us well. I also hugged someone for the first time a few days ago and it made me cry. So please get vaccinated and tell a friend. Thank you! ”

“ My experiences with the Covid vaccine were actually great. When you think about getting a shot, the feeling of a pinch is there to feel, but once you get it, you actually don't feel a thing. And for me, I didn't really get any symptoms but a sore arm, I recommend getting it. ”

*Ricardo T., Making Waves, 11<sup>th</sup> grade*
