Subject: Flood Safety Information Brochure

Dear Property Owner/Resident,

As part of the City of San Pablo annual outreach effort, and in compliance with the National Flood Insurance Program's (NFIP) Community Rating System (CRS), we are pleased to provide you with a brochure about flood safety. The CRS program provides incentives to communities that exceed the NFIP's minimum standards. The City's efforts to pursue the CRS program resulted in discounted flood insurance premiums, which began on October 2013. Our records show that your property is within the Federal Emergency Management Agency's (FEMA) 500-year flood zone. We want to provide you with resources and information to help you prepare for and manage flooding issues.

Please set aside some time to take a look at this important publication. Should you have any questions beyond the information provided in the brochure, please contact me at (510) 215-3039 or by email at Oscard@sanpabloca.gov

Sincerely,

Oscar Davalos
