

NEW! SAN PABLO SOLID WASTE COLLECTION AGREEMENT

Beginning July 1, 2025 San Pablo customers will receive new and enhanced solid waste collection services through Republic Services

ADDITIONAL BULKY ITEM PICKUP FOR SINGLE-FAMILY HOMES

Single-family homes receive three (3) bulky item pickups per year. A large item may also be swapped for one of the following:

- 5 electronic waste items
- 15 x 35-gallon bags up to 50lbs per bag
- 4 x 95-gallon bags up to 50lbs per bag

BULKY ITEM PICKUP FOR MULTI-FAMILY DWELLINGS

At the request of the property manager, for up to 20 dwellings per year, residents at multi-family dwellings may receive a curbside bulky item pickup for up to three (3) large items.

These large items can be swapped for the alternatives listed under bulky item pickup for Single-Family Homes.

DUMPSTER DAY & VOUCHER PROGRAM EXPANSION

Our Dump Vouchers and Dumpster Day Programs are expanding! Residents will soon see Neighborhood Dumpster Days in addition to the Citywide Dumpster Day events.

Exact dates will be added to the City calendar as they approach.

LOW-INCOME DISCOUNTS AND SERVICES FOR DISABLED CUSTOMERS

A new low-income discount program offers a \$5/month discount for qualifying residents.

For adult residents with disabilities, on-premises service is available upon request to assist with setting out carts at the curb for weekly pickup.

MOVE-IN/OUT COLLECTION SERVICE

This one-time service is for large recycling items (cardboard boxes, newspapers, packing foam) produced within three months of a move. If garbage is included in the pickup, then it counts towards the free annual Bulky Item collection.

WASTE CONTAINER REPLACEMENTS

Once every five years San Pablo customers are able to replace each of their waste containers (Garbage, Recycling, and Organics) for clean ones.

If the containers are lost or stolen customers are entitled to one replacement every 10 years.

HOLIDAY TREE PICK-UP SERVICE

During the three weeks following December 26th, holiday trees may be left on the curb for pickup by Republic Services.

Note: This collection does not count towards the bulky item pickup.

NEW ALL ELECTRIC SIDE-LOADING GARBAGE TRUCK FLEET

San Pablo is the first city in California to have an all-electric side-loading garbage fleet! These trucks are zero-emission vehicles which means less air pollution and a significant decrease in noise for the San Pablo community.
