

City of San Pablo

November 2025

# Employee Of the Month

## Sergio Caldera

Since arriving at the City as our Chief Building Official in January of this year, Sergio has jumped right in to provide the leadership to keep our major construction projects going, upgrade our inspection processes, resolve a backlog of RHS and mobile home inspections, and improve all of our permit and inspection review forms.

Sergio has a wealth of experience from his 30 plus years in the business and has worked as a specialty inspector on many complex institutional projects. This experience has been highly beneficial to the City as we work to bring the Police Training Facility to completion. Sergio has gone above and beyond in arranging and performing expedited inspections, providing detailed punch lists, and serving as an expert facilitator in resolving complex technical issues. He is patient, kind, and has a wonderful work ethic. He is always happy to help on any issue or need and enjoys sharing his knowledge and practical problem-solving skills. He is a tremendous co-worker and supervisor.

Sergio is a strong advocate for exceptional customer services and is committed to guiding the community through safe and efficient building processes. His bilingual proficiency in Spanish allows him to effectively communicate with and serve San Pablo's diverse population.

For his extraordinary contributions to the City in facilitating a record-breaking year of new construction, I would like to salute Sergio!
